#### INDEPENDENT AUDITOR'S REPORT

To the Board of Directors Signal Hill Capital Group LLC Baltimore, Maryland

We have audited the accompanying statements of financial condition of Signal Hill Capital Group LLC, as of December 31, 2005 and 2004 and the related statements of operations, changes in members' equity, changes in subordinated borrowings, and cash flows, for the years then ended that you are filing pursuant to rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentations. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Signal Hill Capital Group LLC as of December 31, 2005 and 2004, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in Schedule I-Computation of Net Capital under rule 15c3-1 of the Security and Exchange Commission and Schedule II-Computation for Determination of Reserve Requirements Under Rule 15c3-1 of the Securities and Exchange Commission are presented for purposes of additional analysis and are not a required part of the basic financial statements, but is supplementary information required by rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The schedules of operating expenses and other income (expenses) on pages 14 and 15 are also presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information in these named schedules has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and, accordingly, we express no opinion on it.

#### NOTES TO THE FINANCIAL STATEMENTS

#### **DECEMBER 31, 2005 AND 2004**

#### NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### **Description of Business**

Signal Hill Capital Group LLC was organized on May 10, 2002 under the laws of the State of Delaware as a limited liability company. The Company is a broker dealer registered with the Securities and Exchange Commission (SEC) and is a member of the National Association of Securities Dealers (NASD) engaged in investment banking advisory and capital raising services.

#### **Method of Accounting**

The financial statements are prepared on the accrual basis of accounting.

#### Cash, Cash Equivalents and Certificate of Deposits

The Company considers all highly liquid financial instruments purchased with a maturity of ninety days or less to be cash equivalents. The Company maintains their cash in bank deposit accounts and certificate of deposit accounts which, at times, may exceed federally insured limits. The Company has not experienced any losses in such accounts. The Company's management believes the Company is not exposed to any significant credit risk on their balances.

#### **Accounts Receivable**

Accounts receivable are uncollateralized customer obligations due under agreed upon terms generally payable upon receipt of invoice. Invoices dated over 30 days old are considered past due. Management does not normally charge interest on delinquent accounts.

The carrying amount of accounts receivable is reduced by a reserve allowance that reflects management's best estimate of the amounts that will not be collected. Management individually reviews all accounts receivable balances and based on an assessment of current creditworthiness, estimates the portion, if any, of the balance that will not be collected. Management writes off all accounts once they have determined further collection efforts will be unsuccessful.

#### Investments

Management determines the appropriate classification of investments in marketable securities at the time they are acquired and evaluates the appropriateness of such classifications at each balance sheet date. The classification of those investments and the related accounting policies are as follows:

Trading securities: Trading securities are held for resale in anticipation of short-term fluctuations in market prices. Trading securities, consisting primarily of actively traded equity securities, are stated at fair value. Realized and unrealized gains and losses are determined using the specific identification methods and are included in income.

Available-for-sale securities: Available-for-sale securities consist of marketable equity securities not classified as trading securities. Available-for-sale securities are stated at fair value, and unrealized holding gains and losses, are reported as a separate component of members equity.

#### NOTES TO THE FINANCIAL STATEMENTS

#### **DECEMBER 31, 2005 AND 2004**

#### NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Investments (Continued)

Held to maturity securities: Held to maturity securities consist of bonds, notes and debentures for which the Group has the positive intent and ability to hold to maturity and are stated at cost, adjusted for premiums and discounts that are recognized using the interest method over the period to maturity.

Realized gains and losses of available-for-sale and held to maturity securities are determined using the specific identification method and are included in income.

#### **Depreciation**

Property and equipment are stated at historical costs, less accumulated depreciation. Depreciation is computed over the estimated useful lives of the depreciable assets using the straight-line method. The estimated useful lives of the assets are as follows:

Computer and office equipment Furniture and fixtures

3 - 5 years 7 years

#### **Income Taxes**

The Limited Liability Company acts as a partnership which is not a taxpaying entity for income tax purposes. The income from the Company will be taxed directly to its members. Therefore, no provision for federal income taxes has been provided.

#### Reimbursed Expenses

The Company includes reimbursement of expenses in revenues and the related expenses in operating expenses.

#### **Use of Estimates**

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements, and reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

#### **Members' Equity**

Membership interests in Signal Hill Capital Group LLC have liability limited to capital investment for all members. At December 31, 2005 and 2004, there were 9,800 units of membership in the company issued. Included in those units are 8,800 units which have voting rights and 1,000 units which are non-voting.

#### Reclassifications

Certain amounts in 2004 have been reclassified to conform with the 2005 presentation. Such reclassifications had no effect on previously reported net income.

#### <u>Advertising</u>

It is the Company's policy to expense advertising costs as incurred. Advertising and promotion expense for the years ended December 31, 2005 and 2004 was \$3,194 and \$13,077, respectively.

#### INDEPENDENT AUDITOR'S REPORT ON INTERNAL ACCOUNTING CONTROL

Board of Directors and Members Signal Hill Capital Group LLC Baltimore, Maryland

In planning and performing our audit of the financial statements of Signal Hill Capital Group LLC for the year ended December 31, 2005, we considered its internal control, including procedures for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by Signal Hill Capital Group LLC, including tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate indebtedness) and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following: (1) making the quarterly securities examinations, counts, verifications and comparisons; (2) recordation of differences required by rule 17a-13; (3) complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System; (4) Obtaining and maintaining physical possession or control of all fully paid and excess margin securities of customers required by rule 15c3-3.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control policies and procedures and of the practices and procedures referred to in the preceding paragraph, and to assess whether those practices and procedures can be expected to achieve the SEC's above mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal control or the practices and procedures referred to above, errors or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of the internal control would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving the internal control, including control for safeguarding securities that we consider to be material weaknesses as defined above.

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL ACCOUNTING CONTROL (Continued)

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2005 to meet the SEC's objectives.

This report is intended solely for the use of the Board of Directors, management, the SEC, and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and should not be used by anyone other than these specified parties.
